"NEW BANK PROPOSED. There is much talk about a new Bank which should start pretty soon. It is proposed as a National Bank, which absorbs the present Treasury Office of the Republic of Panama, and aided by the Government with $250,000 Gold, does all kinds of banking and mortgage business. Mr. Hacera actually Minister of Finances (and a good friend of mine) told me he shall be the President for lifetime of the Bank and order with you all Shares, Certificates, Obligaciones (id est Bonds), Letterheads, etc. Of course it is plesant to hear this, but on the other hand I heard that the Bank will start but without Mr. Hacera. You can depend on me that I try my best to get this business"

"PROPOSED NEW NATIONAL BANK IN PANAMA. When you return from your trip through Central America, it would be well to look into this matter very thoroughly as we note that the same was mentioned in the Secretario de Hacienda's report of 1908 to the President of the Republic. Really this is more than a report and must be taken very seriously into consideration. Beore leaving Panama try to obtain all the details necessary in connection with this, - or the order if it is to be placed at the time you are there."

BANCO HIPOTECARIO NACIONAL. There is a plan before the Congress to found a Mortgage Bank with the aid of the Government. The former Ministro de Hacienda - Mr. Hacera - is to be appointed as President and General Manager and he will do his best as he told me, to secure the orders for Shares, Letterheads, etc, for us. This project is said to be realized in March or April of this year.

Dear Sir:-

We herewith enclose copy of a letter we have received from the Banco Hipotecario y Prendario in Panama, requesting samples and catalogue of prices for Cedulas Hipotecarias. As the book of samples you have contains specimens of Acciones with Coupons and other forms of interest bearing certificates, you can take up this matter directly with the Bank, and after they have selected the design that suits themr requirements, you can write us, indicating the sample selected, whether the work is to be all steel or litho, or part steel and part litho, as well the quantity, and we will then give you a quotation. You can explain to the customer that we could not quote him prices until we knew what approximately, would be his requirements.

Gentlemen:-

Relative to your letter of the 8th of September and my reply of the 27th of that month, with reference to an issue of "Cedulas" by the Banco Hipotecario y Prendario of the Republic of Panama+-

filed in #144

I have called upon Mr. Chiari, the Gerente of the Bank, on several occasions, but each time has has not been able to decide as to the advisability of the issue. Inasmuch as he is only authorized to pay 2% thereon, he does not think he would be able to dispose of the Cedulas even if he had them. I shall call upon him again at intervals of about a week and advise you immediately of any result.

I have tried also to interest him in checks, bound books, and other kinds of stationery, but he seems to have on hand quite a supply of everything. The bank does very little business and does not seem to require anything at present. I have endeavored to secure orders for stationery from the International Banking Corporation (all of whose work is at present performed by Sprague of London); of the Panama Banking Company (who have on hand a supply sufficient for, I verily believe, five years); and of Ehrman and Company. The latter may require, in four or five months, a supply of draft-forms and check books, but all that I can suggest now is that you might forward me a few samples, with approximate prices good for say, two months, so that I can leave the samples in their office and not have to leave my book with them.

Several of them receive their stationery from firms they represent, like the Singer Sewing Machine, Pabst Brewing Co., Parke-Davis & Co., and others have been dealing with the same firms in Germany or England for years. In my rounds I have been really surprised at the quality of the stationery in use, practically all of which is a very inferior grade.

Gentlemen, Commercial Printing

By own experience and that of Mr. McFld. here impells me once more to bring to your notice the decided drawback facing a representative of yours in his inability to quote prices off-hand on such simple work as business stationery, check books, envelopes etc. which surely might be submitted to some sort of classification as to price.

It often is the case that a customer would give you a trial order of small import and it would certainly be absurd to spend $ 10 in cables for a job that would amount to $ 150 And yet the obtaining of that small order might be the beginning of a succession of larger ones. Then again it puts a representation in a poor light before a prospective customer, to avoid which he is apt to neglect the opportunity altogether.

I have looked up the concerns who are most likely to order comm'l

printing abroad and found that most of them are well supplied just now. Mr M. Far. is keeping an eye on them and will eventually get in his wedge.

Banco Hipotecario y Pundario de la Republica. (Panama)

This institution is still in mushroom stage and not anyway as consequential as the length of its title!

I was able to persuade the Manager to put an end to the disreputable looking checks in use there and give us a trial order, which I hope to enclose in time for the mail.

He wants 10000 (ten thousand) lithod. checks, pantograph tint with above title, printed in Red (tint shade left to you) on fair quality paper with stubs perforated, bound in books of 25 single checks each.

I enclosed a sample of their actual checks to guide you for text, with rectification.

Size may be a trifle longer, 1/2 in. even a bit wider if you think it best as long as you remain within a convenient pocket size.

For a vignette, which of course, to be proportionate to size, should be a very small

20 one you may use the Panama coat of arms or any other vignette you see fit.

This will be an opportunity to introduce your printing with your imprint in Panama and may be an encouragement to other concerns, if the result is as I hope you will aim to make it.

In view of the small amount involved I thought it really best not to incur cable expense and quoted a price of $150.- f.o.b. N.Y. for the 10000 Chgs. which I trust was on the safe side?

Please prepare a model for approval.

I was also asked to give a price for

10000 litho'd letter heads (bus. size)
2000 (9½ × 4¼ in.) " large oblong env. p. same
8000 (6 × 4½ in.) " square business env. p. same

I did not feel safe to quote less than $200 for this order which remains in suspense as a result, being thought too high.

If you can do better they will be glad to hear from you. Better deal thro' Mr. Mac F.'. This institution being a government dependency I did not ask for advance payment.

Yours faithfully H.F. Boulvin

I submitted for approval the model for this concerns checks which you had sent to Mr McFarland.

It was thought very handsome and you may engrave and print this check just like the model, excepting that space for numeration shall remain blank and parts to text for tint be, of course, made "special".

I also submitted model for letter-heads & envel.s but the price is away beyond what they mean to spend for this item in the present initial stage of this institution.

Mr. McF. will mail you back the check model.

MAR 16 1911

My dear Mr. Claudet:-

As you probably remember, something like a year ago when the matter of "Cédulas" for the "Banco Hipotecario y Prendario" was a subject of correspondence I wrote you concerning the possibility of an emission of paper money in connection with the proposed railway, you replying, if I remember correctly, that it was your understanding that, under the existing Treaty between Panama and the United States, such an issue could not be made. (All of this correspondence is in Panama and I am unable to quote exact dates, etc.) I also remember that I asked if it would be very troublesome to prepare designs of two or three bills and you replied that unless there were some probability of securing an order your thought it unnecessary to incur this expense but if there were any certainty you would prepare one specimen and forward. As I found the likelihood of an immediate order rather out of the question, the matter rested until I again mentioned it to you during luncheon at the Club when I was in New York. At this time I informed you that I would not be in Panama after my return south. Upon my return here I advised your office that I had delivered my book of samples to Mr. Juan Ehrman, of Ehrman & Co. and advised the appointment of this gentleman as your representative. Mr. Cary replied, informing me that the office preferred to appoint its own representatives, to which I answered"when I go to Panama I will forward specimen book and correspondence."

I have not been to Panama, therefore the correspondence and book are still in that City. With the above preamble I think it to your interest to advise as follows:

Before leaving Panama I discussed the matter of this issue of paper money with Mr. Ehrman, who has been keeping the matter in mind and used his influence to secure the passage of Law 45 of 1911 which provides for the issuance of $500,000. of paper money. I enclose a translation of the portion of said Law referring to denominations, etc. Mr. Ehrman has practically been promised the order for this work,

and I strongly recommend that he be formally appointed your Isthmian representative. Mr. Ehrman is a gentleman of the highest standing socially, commercially and politically in the City of Panama and I am certain no one there is in a better position to secure Government business than he. Were I your representative I would look to him for the necessary leverage around the office of the Secretary of Hacienda to enable me to prize this contract loose. He has performed the necessary preliminary work and is thoroughly capable of bringing the negotiations to a happy conclusion. Furthermore it would appear strange, to say the least, were someone other than Mr. Ehrman to now appear as your representative. It would, in all probability, imperil the final award of the contract to your Company.

I would further suggest that you forward to Mr. Ehrman specimens of other currency which you have prepared from time to time, together with any information which will be of assistance to him in this work. These specimens should reach him at the earliest possible moment.

With the above explanation I trust you will understand that it will be good policy for your Company to act in line with this letter.

Very respectfully,

El Banco no podrá emitir sino en la proporción en que el Poder Ejecutivo haya hecho el depósito á que se refiere el artículo anterior.

Other Articles refer to the money as issued in accordance with the preceding paragraphs being accepted for all public (national) and municipal debts of every kind; that they will be exchanged for currency at the bank, its branches, in private banks and commercial houses.

Art. 33 provides that the Board and the Manager will decide upon the models for the bills as well as every thing relative to numbering, etc., and destruction when necessary. Art. 34. provides that the fac-simile signature of the President of the Board and the Director will appear on each bill.
In my first letter on this subject I suggested that the bills be made smaller than those of the United States, the size of the Philippine Currency, if I remember correctly.

I am certain this innovation will be appreciated and would suggest that you lay stress thereon.

Mr. Ehrman agrees with me in this point.

Dear Sir:-

We are in receipt of your letter of March 7th, enclosing translation of the Law referring to a Bank Note issue for the Banco Nacional.

We note that yourletter is addressed to Mr. Claudet, who is at present in Cuba, and is not expected to return for about two weeks,- therefore, the writer will reply to the same.

As suggested by you, we have taken up the Bank Note question with Mr. Juan Ehrman of Panama, and have requested him to represent us in this order.

In regard to appointing Mr. Ehrman as our Agent in Panama, would say, upon Mr. Claudet's return we will take this up with him.

In writing you that the Company preferred to appoint its own representatives the writer felt that you should

have notified us of your intention to resign as our Agent, and if you cared to at the time, suggest the appointment of Mr. Ehrman. I think that you - on second thought - will agree with me, that you did not handle this in just a business like way, and I must say that I have no personal feeling in the matter.

We note that our specimens are still in Panamá, which may remain there for the present.

Thanking you for putting us in touch with this business, we remain,

Yours truly,

Dear Sir:-

We are in receipt of a letter from our former Agent in Panamá - Mr. E. C. Mc Farland, dated March 7th, informing us of an issue of Notes for the Banco Nacional of Panama, and urges us to take this matter up through your goodself.

This would be very agreeable to us, and if the said order is secured for our firm we will allow you a commission of 10% on this work.

Mr. McFarland has sent us a copy of the law which has been enacted, permitting this Bank to issue Notes. We Note that the denominations will be of 1, 2, 5, 10, 20 and 50 Balboas, and would say, before we can quote prices it is necessary for us to have the text that will appear on the Notes; size and quantity of each denomination, and whether they will require any special vignettes, of which we would

like photographs. If you can send us these details we would prepare a model of one denomination; but if you feel that there is a good chance of securing this order we will be willing to make models for all denominations, submitting them to you.

Not having any specimens of Bank Notes made up at the present time, we think that the models would be just as effective in this case.

Mr. McFarland urges very strongly that we appoint you as our Agent in Panamá. We have had this under consideration for some time, but as our Mr. Claudet - General Sales Manager - has been away for some time, but is expected to return in about two weeks, we will then take this matter up with him.

Trusting that we may hear from you at an early date, we remain,

Yours truly,

Dear Sir:-

I beg to acknowledge the receipt of your letter of the 24th ultimo, and note that you have requested Mr. Ehrman to act in connection with the emission of the B/500,000. order of paper money.

I fear your letter is written under a misunderstanding, that is, the portion relative to my notifying the Company I could no longer act as their Agent in Panama. This I told Mr. Claudet personally when in New York and did not think it necessary to confirm the matter in writing. If I remember correctly I at this time spoke to Mr. Claudet also of Mr. Ehrman and of the specimen book.

If you interpreted my letter as having a personal note of feeling, I very much regret it, as it was certainly no intention of mine to lay stress upon your remark relative to the appointment of an Agent. I considered it my duty as a former Agent to recommend someone who would be "persona grata" in Panama, and who could get the business.

With kind regards, I remain

I am in receipt of your favor of the 24th. March last and contents duly noted.

Regarding the law permitting the Banco Hipotecario, now BANCO NACIONAL, to issue notes, I did not advise you about it, as it was known that this Republic could not do it on account of an agreement between this Government and that of Washington which prohibited it and as soon as said law was communicated to the United States the issue was given up.

Nevertheless I had a conversation with the Manager and promised me that if an issue was to be made the order would be given to your Company.

Hoping that Mr. Claudet-General Sales Manager, has returned and that he will take up the matter regarding my appointment as your Agent here.

Dear Sirs:-

Replying to your esteemed favor of November 24th, we have to advise that our charge for furnishing you with 250,000 checks, lithographed in one color, as per the altered specimen you sent us, perforated between check and stub and bound in 10,000 books of 25 checks each, is as follows:-

Preparation of engravings.....$55.00
Printing checks as above, per 1000..... 3.60

This price is U. S. Gold, F.O.B.New York. We would say that the above mentioned engraving charge is due to the fact that you now with the name of your bank to appear in microscopic letters in the panels for the value and number ,- repeated over and over again. To print this form of lettering satisfactorily it is necessary to engrave the original die on a steel plate and it is for this reason that the engraving charge may seem high to you. Once this engraving is prepared it will always be held especially for your work and on

all future orders for checks placed with us this charge will naturally be eliminated.

We notice that the title of your bank as shown on the altered sample you sent us reads simply "Banco Nacional" with the name "Panamá" on the date line; whereas your title as shown on your letter heads reads "Banco Nacional de Panama". However, we are following your sample exactly - making the title "Banco Nacional" and the microscopic lettering already referred to read "Banco Nacional,Panamá." As soon as this engraving is completed we will send you a proof, as you request.

Wishing you the compliments of the season, we beg to remain,

Mr. Juan Ehrman,

Dear Sir,-

Banco Nacional de Panamá

As you already know, the above Bank wrote us some time ago requesting us to furnish them with 250,000 lithographed checks, similar to specimen sent us, and asking us to proceed with the work of printing, supplying half of them in blue, the other half in red.

They also requested us to quote prices and send proofs to them before proceeding with the printing.

On Dec. 12th we wrote the Bank, quoting them prices for preparation of engravings - $55.00
and for printing per 1000 - 3.60
U.S.Gold, F.O.B.New York.

We are now in receipt of a letter from the Bank, dated 23rd December, in which they have decided to order only 25,000 checks, but making no reference to the price. We take it from this that they expect to get the smaller order at the price quoted for the larger one.

This you know we cannot do, since quantity regulates our price more than anything else.

We would thank you to call upon this Bank with the proofs which we enclose, and explain fully to them our position in the matter, as well as inform them that our price for these checks in quantities of 25,000 will be:

For preparing engravings - - - - - - - - - - - - - - - $55.

Printing per 1000 checks - - - - - - - - - - - - - - - 4.95

U.S.Gold, F.O.B.New York.

There is no doubt but what the bank will feel that this is a big increase in our price, but you can explain to them how utterly impossible it would be to supply these checks in so much smaller quantities at the same figure.

Kindly have the enclosed proofs marked with their approval, or any changes or corrections they desire made.

We are today writing the Bank direct, informing them that the proofs have been sent to you, and that you will present them to the Bank. We are bothering you with this matter for the reason that we know you can properly explain matters to them, and make them understand much more clearly than we could do by writing direct.

Trusting that we have made ourselves clear,

We have your letter of December 24th with reference to the order which we recently acknowledged for 10,000 Checks for the above mentioned Bank. Copy of our acknowledgment has already been forwarded to you.

As suggested, we will arrange to make shipment at the earliest possible date by Parcel Post direct to the Bank. It will take about three weeks to get this order ready.

From our letter to the Bank, you will have seen that it is necessary to increase the price for this order. Owing to the high cost of everything, even at the increased price we expect to make little or no profit. We mention this so that you may be posted in case the customer discusses the matter of prices with you.

Panama, Panama.

Dear Sirs:-

It gives us much pleasure to acknowledge your kind favor of December 26th (No. 701), in accordance with which we have entered your order for 10,000 Checks exactly similar to the enclosed sample - color red, paper same as last order, no numbers, perforated between check and stub, delivered in 400 books of 25 checks each, exactly the same as before.

We are in a good position to handle this order and expect to make prompt delivery as requested.

In view of the very great increase in the cost of labor and materials since your last order was prepared in 1913 and also of the fact that your order is considerably smaller than before, we are compelled to charge a somewhat higher proportionate price. Later on, after peace has been declared and things have returned to normal, there may be a tendency toward reduction in prices, in which case we shall be glad to give you the benefit when your next order is placed.

For the above mentioned order our price will be $75.00

Thanking you for this order which will have our prompt and careful attention, we are

U.S.P.R. FEB 18 1921

DATE February 17,1921.

New York to Panama

We received your letter of January 21st, supplementing yours of December 23rd.

We assume, since you do not specify it, that the changed arrangement of the text on the check of this bank is intended both for the single checks and for the customers' checks, 3 on a sheet,- but that the additional text shown on the stub of the sample sent us is intended only for the latter and should appear only on the stub of the check at the bottom of each sheet.

When we supply "customers'"checks we are invariably expected to leave a blank space at the left for the printing of the customer's name, which the bank has done locally,as occasion arises, with the binding - which of course cannot be done before the typing.

If contrary to the above described practice the Bank wishes us to print the customers' names and bind the books it will be necessary for us to know how many names there are to be before quoting a price.

As regards the single checks with stub as before and check face arrangement as per your sample, we are prepared to furnish as before:

1000 books of 25 checks and
500 " " 50 "

for the price of/.....$500.00 U.S.Gold,F.O.B.New York.

Hoping we may soon have news from you in the matter, we remain,

Yours very truly,

In due course we received your letters of December 10th and 23rd, also the returned model of O. & D. draft,which we have modified to meet the Bank's desire as to disposition of the text.

We have not changed the tint on the model since to do that would mean making the model over again, an expense which you or the bank probably fail to appreciate. Once the draft has been engraved it will be easy to print the tint (background) in any color desired and if wanted we can pull proofs in various colors for the customer's choice.

The modified model is being sent you under separate cover registered and we hope it will be satisfactory.

Yours,very truly,

Manager Foreign Department.

Dear Sirs,

We refer to letter of October 20th,1922, to your local agent.

As you are aware, the checks made up for us were received and payment therefor has gone forward.

Now as to the drafts: we understand from your letter that the quotation of $200.00 covers 5000 each Originals and Duplicates. Are we correct in our assumption. Meantime please put order in works for prompt shipment. ped

Through your Agent we are returning by even mail sample submitted, on which we have noted following alterations, viz:

Space at top for writing amount in figures to be enlarged about 50% of present size.

Add below, at the points marked, the words "Gerente" and "Cajero".

Omit lines for name of drawees as we usually insert this by means of rubber stamp and then the lines would be in the way.

We received your inquiry of April 1st, in reference to circular letters for the above named.

The small quantity involved deters us from proposing a lithographed letter, because the expense of engraving in this case would be out of all proportion to the rest of the cost items and shows a prohibitive figure for the total.

Under the circumstances we can only propose a typographed letter. The specimen you sent us is also typographed. It is safe to claim however, that our production would be very much better in every respect.

The enclosed specimen illustrates, in the text part, the type we propose using. Possessing steel engraved dies of the Coat-of-Arms we can make an electro cut for the heading that will look much finer than that of your specimen; our paper would also be of finer grade.

Executed as we suggest we can furnish 200 letters for....$90.00 U.S.Gold,F.O.B.New York.

Awaiting your further news on this subject, we are,

Yours very truly,

Dear Sirs:

We beg to acknowledge receipt of your favor of May 3rd enclosing a remittance of $207.61 and an order to prepare for you 10,000 check forms for both of which we thank you.

Your order is having immediate attention also your desire for a little more space for payee's name.

Considering that it is but a comparatively short time since we furnished you with a similar lot of 10,000 forms you may be interested to know that the larger the quantity ordered at one time the lower the manufacturing cost to us and our price to you.

Our charge for 10,000 check forms will be . . . . . $90.00 f.o.b. New York

For 25,000 it would be $175.00

or a reduction of $2.00 per thousand forms.

Should you see your way to increasing your order to the latter quantity, a cable to that effect would still reach us in time to give you the benefit suggested.

C. F. R. JUN 19 1923

The Bank writes us under date of June 7th confirming the increase of their order from 10,000 to 25,000 checks.

They also say that you will have written us in regard covers for these checks as they "need some covers with special binders in order that customers can replenish the supply of checks when necessary, retaining the same cover".

The order as entered was understood for delivery as previously that is 3 checks on a sheet, perforated, sheets remaining loose. Our price is based on this specification. A change will naturally increase the cost but we can hardly estimate the same without more definite indications.

If you will please discuss the following points with the Bank we shall be glad to quote a price at which we meet their wishes as to binding. We need to know:

1) How many books of checks fillers are to be made up and how many checks to each book?

2) Are these books to be made up of single checks or 3 checks on a page?

3) How many covers will be wanted and are they to be leather covered or some leather substitute like pantasote which is cheaper, looks well and wears very well.

We shall be glad to submit price when advised on these points but it seems to us that a strong manila cover might win favor with the Bank being much less expensive.

We note from your letter of June 23rd that the bank desires to have their letters lithographed and not typed and have made up an estimate on these forms. As we would supply you with 500 of these letters about as cheap as with 200, we have given you a figure on both as follows:

For preparatory work including the original engravings . . .	$ 75.
For 200 letters	100.
For 500 letters	125.

Additional letters with changes in signatures would in all probability cost the same as shown namely, $100 and $125 respectively, as with any change in signature the entire form would have to be printed.

The letter which we would furnish would be of a different character in appearance than the sample which you sent us. We enclose herewith specimens of letters which we have prepared to give you an idea of the letter which the bank might expect from us.

The figures which we have quoted you above are cost to us but we have made provision for your usual commission on same.

We have prepared for this bank checks in the form as per specimen sheet herewith, that is, 3 checks to a sheet with stub. These sheets are delivered loose. The bank is now looking for a binder to hold 50 sheets of checks.

Mr. Church has shown us a binder of the American Bank Check and Cover Co., which form of binder might possibly meet their requirements. The binder which we have here is entirely too large for the sheet and we would like, if possible, to send to the bank a sample of the binder which we propose for their use.

Could you obtain and send to us a binder that would be of proper size for these sheets, also letting us know what it would cost for binders in lots of 50 and 100 with or without the name of the bank appearing on the front cover.

If the bank was to use this style of binder, it might be that they would require a wider binding space. We would like to have your judgment on this point. Would you also send us one or two checks which you have prepared for use of such binders.

If there is any other style of container which you know of and which could be adapted to the use of lose checks we would be very glad to have any information which you can furnish us along this line.

Kindly return the sample sheet when it has served your purpose.

This will acknowledge your letter of July 20th having reference to binders for checks of Banco Nacional, Panama. The binder referred to by Mr. Church, and known as American Bank Check cover is one which we do not recommend unless the customer specifies it. For a great many years we were obliged to pay a royalty on all checks punched for these covers, the patent consisting of the distance between the center of the holes. The patents have expired and any one is now at liberty to punch checks for these covers without the payment of a royalty. However, the service rendered was not of the best and we have recommended, wherever possible, the use of two other covers. One of these is the Irving Pitt cover, a specimen of which we are forwarding you today. This is a binder which is proving very satisfactory to a number of our customers.

The new style binder, as represented by the specimen which we have forwarded, has two holes instead of three holes, as was the case with the original binder and binders of larger size which we have generally used. In fact all of the checks which we are holding in stock are punched for this cover with three holes.

We are forwarding you some checks made for the Waukegan National Bank and the First National Bank of Whiting which have been punched for use in connection with the Irving Pitt covers.

The cost of these binders in lots of 50 or 100, as represented by the binder forwarded, which is their cover No. 930,

and which will accommodate a sheet size 9-1/2 x 12, 65 cents each. The size of the check used by your customer is a trifle smaller and would require a special binder, that is, one made to order, and a binder made to order to fit this cover in lots of 50 can be purchased for 70 cents each. Lots of 100 for 65 cents each. These prices do not cover any embossing of customer's name on the covers.

The other cover which we particularly recommend is represented by cover prepared for the Central Trust Company of Illinois, which we have also forwarded. This is made out of fabricoid and the cost of these in lots of 100, with name of the Bank embossed as represented by specimen of Central Trust Company, will be $1.00 each. We cannot deliver these in less than 100 lots with embossing. The plain cover in lots of 50, that is, without any embossing, can be furnished for 80 cents each.

With reference to your question as to binding space we believe that the check is correct as at present as there is sufficient room for punching. You will, of course, appreciate that checks prepared for a binder as used by the Central Trust Company would have to be put up in fillers so as to fit in the cover.

In our opinion this is a very artistic cover and would be of some advertising value to your client.

We appreciate your letter of July 25th with information concerning binders for checks.

We take the liberty of forwarding to the Bank the two samples which you sent us so that they will be in a better position to make a selection of the cover which seems to best meet its requirements.

You do not mention the charge for embossing the customer's name on the cover. Does the cover manufacturer do this and what would the price be for wording: "Banco Nacional, Panama R. de P."

We appreciate your kindness in furnishing data.

Since receipt of your letter of June 30th we have been looking into the matter of check book covers for the Bank. We find two covers in the market, either of which seem very practical and which we hope will be along the line of the container which the Bank has in mind.

One of these binders is made by the Irving-Pitt Manufacturing Co. of Kansas City, Missouri. The size of this cover, style No. 930 which we are sending you, is slightly larger than might be required for the Bank's checks 3 on, but if desired a smaller size can be made at a slightly increased cost above the stock size. The price of these binders run from about $.70 to $.80 cents each in lots of 100: lots of 50 would cost about $.08 or $.10 cents more per binder. These prices do not include charge for embossing the customer's name on cover but this expense would be very slight. This binder you will notice permits the use of loose sheets, the only requirement being that the sheets have 2 holes punched in the stub to fit in the ring. This could probably be done there by a local stationery.

The other binder as per sample of the Central Trust Company of Illinois is a more expensive container and as you note is made only for checks bound in a tongued back to fit in the pocket of the binder. These binders range in price from $.85 to $1.10.

We have found one or two other binders of different style but believe that the two which we are sending you are the best style and would better meet the requirements of the Bank. Either of these binders which we have forwarded you with the name of the Bank embossed on the front cover would doubtless be of

This will acknowledge your letter of July 31st with reference to the above.

The Irving Pitt covers can be embossed in lots of 50 or 100 for 10¢ each. This is charge covering the embossing of one line only; if two lines are necessary charge would be 20¢ or, as you will notice, 10¢ per line.

We gave you information with regard to embossing of cover which we particularly recommend, which was represented by specimen prepared for the Central Trust Company. As stated in previous letter, we could not deliver these in lots of less than 100 with embossing. Price which we named in lots of 100 included embossing. The cover manufacturer in both instances does the embossing. We would be very glad to have you retain specimens we forwarded until they have served your purpose.

The model for the cedula which we prepared in accordance with your letter of July 17th and copy furnished was received from our plant just in time to catch the steamer so we were unable to furnish you with information about prices etc. by the same mail. Feeling that you would want to have this information before receipt of the next mail we cabled you yesterday our price of $3,600.00 for the 30,000 pieces, 2 denominations, 20 coupons; our telegram read as follows:

> "August 14th Banco Nacional de Panama model cedula forwarded August 11th quote 30,000 cedulas two denominations 20 coupons $3600 U.S.Gold f.o.b. N.Y. Do not want to lose order."

The model which our artists prepared appealed to us very strongly and we hope that it will meet with satisfaction. You will note that on the coupon we have taken the liberty of showing the name of the bank both on face and back as we felt that the bank would want their name to appear especially on the face as we believe it will be a great convenience in the handling of the coupons.

We can print these two denominations in any color which you might select. We would suggest either green, blue, brown, orange or purple.

As to delivery we would need about 4 weeks to prepare the necessary engraving and could begin shipment say 3 to 4 weeks after approval of the engravings. If time is not an important factor we might want to take a little longer than this and would also suggest submitting proofs for the customer's approval. But if the bank is very anxious to get the cedulas we could if

they wished arrange to pass on the engravings here and might be able to save them some time in the delivery as given above.

We are very anxious not to lose this order and ask that you keep us advised if there is any difficulty.

We have purposely ordered these made in this manner so that if the bank desired they could probably find some one in Panama who would be able to put the name of the customer in gold letters under that of the bank.

Our charge for these covers will be.....$50 FOB N.Y.

Although we have been making our shipments to the bank by parcel post, we feel that in view of the fact that the covers are large and bulky , though not particularly valuable, it would be much better to send them by freight and, unless otherwise instructed, will do so.

Yours very truly,

Manager Foreign Department.

FWG/IW

P.S. You will understand these covers are not made by us and the price we are quoting you is simply that given us by the manufacturer, plus your commission. Although it is a trifle higher than what we quoted you it is due to the fact that the manufacturer failed to tell us, at the time of giving his quotation, that a charge was made for the die from which the bank's name is printed in gold on the covers.

To Juan Ehrman:-

With reference to the model of the cedulas hipotecarias which we received through you from the American Bank Note Co., New York, with your letter of August 23rd, we now have to inform you that we have found it O. K. as regards form and engraving, but we have decided to change it somewhat in certain respects, as follows:-

1st - Instead of 20 coupons attached to each cédula, there shall be 40, because they will be issued for 20 years instead of 10, as we at first figured on doing.

2nd - The text in the body of the cédula shall be written as follows, in place of that now shown:-

"RECONOCE A FAVOR DEL PORTADOR CIEN BALBOAS O DOLLARS, QUE GANAN EL INTERES DE 7% ANUAL, PAGADERO POR SEMESTRES VENCIDOS, EN MONEDA DE CURSO LEGAL EN PANAMA O EN LOS ESTADOS UNIDOS DE AMERICA, DE ACUERDO CON LOS ESTATUTOS"

(In all other respects that part referred to will remain the same)

3rd - The text of the first paragraph (?) of the column of "Garantías" on the back of the cédula, shall be taken out and replaced with the following:-

"EL PAGO DEL PRINCIPAL Y DE LOS INTERESES DE ESTA CÉDULA HIPOTECARIA ESTÁN GARANTIZADOS CON EL CAPITAL DEL BANCO NACIONAL, CON LOS INMUEBLES HIPOTECADOS AL BANCO Y ADEMAS, POR EL TESORO NACIONAL DE LA REPÚBLICA".

7433

4th That the capital value of each one of the cedulas be CIEN BALBOA O DOLLARS (should this not be CIEN BALBOAS ?). Therefore, the issue for"CINCUENTA BALBOAS" is cancelled.

After making the foregoing corrections it is understood that the two series A and B shall be of the same model and text,- differing only in the respective letters which indicate the order of the series and the colors, which shall be distinct so that they may be recognizable at a glance.

You may order the execution of the following:-

SERIE A - 10,000 cédulas of B/100 each, text altered and 40 coupons

" B 10,000 " " B/100 " " " " 40 "
of a different color from Serie A.

We trust that the saving in the cost of one plate, of the paper, the ink and the work of 10,000 cedulas less, will bring about an apreciable economy in our favor and as we do not doubt but what the manufacturers will make a new proportional price, we authorize you to give instructions for the execution of the work at once, so as to gain time.

Yours,etc.

Muy Señor nuestro:

Con referencia al modelo de las cédulas hipotecarias que por su estimable conducto recibimos de la American Bank Note Company, New York, con su atenta del 23 de Agosto último, pasamos a manifestarle que lo hemos encontrado conforme en cuanto a la forma y grabado, pero que hemos resuelto variarlo en los puntos que siguen y de la manera siguiente:

1º Que en vez de 20 cupones adheridos a cada cédula, deben ser 40, puesto que serán emitidas a veinte años, en vez de diez como pensamos primero.

2º Que el texto interno de la cédula debe quedar redactado así, en vez del actual:

" RECONOCE A FAVOR DEL PORTADOR CIEN BALBOAS O DOLLARS, QUE GANAN EL INTERES DE 7% ANUAL, PAGADERO POR SEMESTRES VENCIDOS, EN MONEDA DE CURSO LEGAL EN PANAMA O EN LOS ESTADOS UNIDOS DE AMERICA, DE ACUERDO CON LOS ESTATUTOS"

(En todo lo demás quedará lo mismo la parte interior aludida.)

3º El texto del primer acápite de la columna de "GARANTÍAS", al dorso de la cédula, deberá ser surpimido y reemplazado con el siguiete:

" EL PAGO DEL PRINCIPAL Y DE LOS INTERESES DE ESTA CÉDULA HIPOTECARIA ESTÁN GARANTIZADOS CON EL CAPITAL DEL BANCO NACIONAL, CON LOS INMUEBLES HIPOTECADOS AL BANCO Y ADEMÁS, POR EL TESORO NACIONAL DE LA REPÚBLICA".

4º Que el valor capital de cada una de las cedulas sea de CIEN BALBOA O DOLLARS. Queda,por lo tanto,cancelada la emisión de CINCUENTA BALBOAS.

Hechas las correcciones anotadas,queda entendido que las dos series A y B serán del mismo modelo y texto,diferenciándose simplemente con las respectivas letras que indican el orden de la serie y con los colores o tonos de los tintes,que deben ser distintos para reconocerlas a la simple vista.

Puede Ud.ordenarla ejecución de la órden así:

SERIE A _ 10.000 cédulas de B/100.- c/u -texto reformado y 40 cuponoe

" B _ 10.000 " B/100.- " " " 40 "

con tonos y tites distintos a la serie A.

Esperamos que el ahorro del costo de una plancha,del papel,la tinta y el trabajo de 10.000 cedulas menos,resultará en economía apreciable a nuestro favor y como no dudamos que los fabricantes harán un nuevo precio proporcionalmente,lo autorizamos para autorizar la ejecución de la obra enseguida para ganar tiempo.

DATE January 10,1924

New York to Panama

In reply to your letter of December 17th, we will be glad to prepare for the above named a lithographed one color check, to conform to the sample enclosed by you, the total length of which,however, we would like to increase by 1/2 inch, to provide a more adequate binding margin and a trifle wider strip for printing the customer's name; this would make the check 2 7/8 x 9 5/8 inches, (including a 2 7/8" stub).

We will furnish: 12,500 loose checks and
37,500 checks in books of 25 each

in a binding similar to the sample enclosed by you.

Price of the loose checks will be on the basis of the quantity named, at the rate of.....$4.75 per 1000 checks. That of the bound checks, at the rate of..... 7.40 " " "
200 loose covers same size and kind as the ones we propose using for the above named books..... 0.05 each. We must be advised whether these covers are intended for books of 25 or 50, in order to make them backs of corresponding size.

It has occurred to us that the bank might be interested in another form of check book extensively used in this city, the cover of which is made to receive "fillers" outlasting a number of them, as it is substantially made with either leather or substitute leather covering, the latter giving very good service at a much lower cost. Under separate cover registered we are sending you two samples, flat and folded of such a check book, which will show the idea that underlies it better than a lengthy description.

Our charge for furnishing these checks in the form of fillers will be $6.35 per 1000 checks. That of the special covers to hold these fillers we can only determine

There is no law authorizing issue of paper money and the Banco Nacional does not intend to issue any. I presume that somebody has heard of the Cedulas Hipotecarias of the Banco Nacional and thought that bank notes would be required.

Mr.Eusebio A Morales ,Secretary of Hacienda y tesoro left for New York on the 6th. instant, on the "Toloa".Apparently the trip is on private business,but to me it seems it is to help our Panama Minister ,in Washington.

SUBJECT BANCO NACIONAL

C. P. R.
MAR 6 1924

DATE March 5, 1924.

In reply to your inquiry of February 12th we would furnish you the following quotations:

25,000 checks - size and style similar to the American Foreign Banking Corporation submitted, which we are returning herewith.
Checks lithographed in two colors, Stock Chieftain bond 16 lb. folio.
Overall size: 2 3/4 x 6 3/8 with 2 1/4" stub
Back ground tint to carry name of the Bank in pantogfaph form, printed in non soluble sensi tive ink.
Bound in books, 25 checks each. Wire stitch fold-over cover with lip, No numbers $250.00

We would suggest that the Bank consider having these checks printed in one color throughout like the specimen attached herewith, "Banco Colombiano", which would save them considerable money and will permit them to have the work prepared by us at a price of $185.00

25,000 checks - as per sample furnished, printed in one color throughout , overall size 3 x 6½ with 2 3/4" stub; Paper A.B.N.Co. bond 20 lb. folio.
No numbers, delivered single, bound in books, 25 checks each, flexible cloth, cut flush . . $182.00

From the specimens which you sent us and which we return herewith, we make the observation that the Bank is getting a very poor product. We presume they are paying much less than our charge would be. You will probably find in connection with Barnard's prices that they run from 20 to 25% under ours. But we are confident that these checks which we would furnish the Bank would be so much better that they would be warranted in ordering a better product.

We hope that through your efforts you will be able to land both of these orders for us.

Yours very truly,

Manager Foreign Department

Banco Nacional de Panama,
Panama City, Panama.

Dear Sirs:

We are in receipt of your letter of March 22nd, No. 1203, placing with us an order for a supply of customers checks for which we duly thank you and assure you that your instructions will receive our most careful attention and delivery will be made at the earliest possible moment.

Our understanding of your order is as follows:

37,500 checks - Panama date line. Size 3" x 6½" with 2 3/4" stub Printed in orange, not numbered, perforation between check and stub, bound in books of 25 checks each, flexible cloth, cut flush.

12,500 checks - same as above, with exception of date line, which shall be blank, namely, without the word "Panama".

Check which you have sent us will be reproduced on this order without additional expense to you. For these two lots our charge will be the same rate as previously quoted making a total of $364.00 U.S.Gold f.o.b.N.Y.

If agreeable to you to make a slight change in the number of each lot of these checks, we will be able to make what is known as a combination run of these two lots and effect a saving for you. To do this would change your order to 35,000 checks - Panama date line, 15,000 checks - Blank date line. With these quantities our price for the total 50,000 checks would be

$320.00

We already have started work on preparing the original engraving of this check. In order not to lose any time on this order, would you kindly cable us on receipt of this letter if our proposal meets with your approval. To simplify cabling we would suggest to use the word "Yes" which we would understand to mean that you would want the combination run as proposed, namely, 35,000 checks - Panama date line, 15,000 checks - Blank date line.

New York to Panama

We are interested to learn from your letter of October 4th that the bank is in the market for a new statement folder using on the front cover a reproduction of their building. Feeling that you would have a better opportunity of securing this order by having something definite before you to talk about, we have had a model of a proposed cover made up which we are sending you this day under separate cover.

We are very much pleased with the treatment and arrangement of this cover as worked up by our artist. We hope it will be pleasing to the bank. The frame which we have put around the building seems to break up the severe line which might be formed by the cutting off of the building as shown.

We would like very much to prepare these folders and with this in view have made up our figure giving you every possible advantage in price. On the initial order, for 3000 folders, we would quote you $200.00. Of this amount $75.00 would represent the cost of preparatory work including the vignette of the building. For 5000 folders, our total price would be $225.00, of which $75.00 would represent the initial charges as above stated. You will notice that there is but $25.00 difference in the cost between 3000 and 5000. As these folders are delivered in blank it might be that the bank would feel justified in ordering even a larger quantity than the 5000. 10,000

or 20,000 folders would materially help them on the rate per thousand. If they are interested in the larger quantity, we will be glad to give you our figures.

We hope you will successful in interesting the bank in our design as well as prices, and that you may obtain this order for us.

Yours very truly,

Manager Foreign Department

SHL/SD

P.S. - Please note that we have reproduced the bank's photo of their building exactly as it was given to us. We have purposely done this feeling that it is what they want. Should this not be the case you may point out to them that to show their building complete would require making a drawing and aside from the time and expense would not give as an effective result as we would be able to reproduce from the photograph itself. However should they be able to furnish us with another photograph taken from another angle that would show the building in its entirety it would be a simple matter to substitute it for the one we have shown on our model.

We have your letter of December 8th. We have also received under separate cover the model of the folder.

We note with regret that we are not to have the opportunity of doing this work. As stationery so reflects the character of an institution we felt that the Banco Nacional would be anxious to issue their folders in as neat and attractive a manner as possible.

We will be interested to see the kind of folder which they will get out and would appreciate your sending one to us later when issued.
